Dear CLYC Member:

“The goal is not to sail the boat, but rather to help the boat sail herself”

John Rousmaniere

To paraphrase, our goal is not to change the Club, but to help the Club change and grow.

It's time to start working. The Dock Building Party is April 2. Dock installation will start immediately after the dock building is complete.

The Spring Work Party is Saturday April 9 starting at 9:00 am and Sunday April 10. Bring your rakes, tool belts, and enthusiasm.

The annual Lift Party, for those who own lifts and want help putting them in the water, is scheduled for May 1 at noon.

You can launch your boat any time after the docks are in.

Races start on Sunday May 22. We're starting later this year than previous years in hopes getting warmer weather and better sailing conditions for the first race of the season.

Your Club Improvement Committee is working to get the word out about how great a group of people our members are. Check the updates to the Club's web site to see our effort to spiff up our image.

Congratulations to our own John Lowry who as a member of the University of Toledo Sailing Club is preparing to participate in the EDHEC Sailing Cup, the world's biggest intercollegiate offshore regatta April 15-23 in Roscoff, France. Cheer him on !!

And don't forget, if you have not already done so, annual dues and mooring fees are due by March 31.

Respectfully,
Your Commodore,
Nick Tanis
